

HAREMLİK GIDA	QUALITY POLICY	Document No.	POS.01
		Released on:	19.03.2011
		Revision No.	01
		Revised on:	--

Haremlik Food Decoration and Equipment Industry Trading Ltd. ("Haremlik") has made all the necessary financial investments and created the necessary infrastructure and personnel employment to produce Turkish coffee as per Turkish food legislation and relevant national and international requirements and in line with the current requirements of constantly developing national and international food safety and quality management standards.

Based on our target of quality and safe products and services, our company will soon enjoy a distinguished position in Turkey and all over the world.

Recognising that quality and safe food production requires qualified employee power, continuous quality control and improvement studies will be conducted to improve our system and products through employment of experienced and trained employees in our company.

Haremlik will produce and offer to the appeal of consumers the traditional Turkish coffee, a symbol of the Turkish people, as per the high standards and hygiene rules as required by our times by carefully selecting high quality coffee beans, roasting and grinding them with traditional methods, blending the traditional production stages of Turkish coffee with national and international food standards and, finally, producing a more traditional Turkish coffee with more hygienic and safer production conditions.

Our goal, i.e. production of Turkish coffee in accordance with national and international standards and legal obligations, meeting customer requirements and satisfaction, will be supported by our quality targets prepared for our employees and thus our policy targets will be achieved.
